10th Mountain Division Name Index

The 10th Mountain Division, specializing in mountain and winter warfare, trained at Camp Hale, Colorado during World War II. In 1987, the National Association of the 10th Mountain Division, composed of veterans of the World War II division, designated Denver Public Library and History Colorado as joint repositories of their historical materials.

In 1998 a small group of volunteers set out to establish a database of information about every man who served with the WWII 10th Mountain Division. They searched the National Archives in St. Louis and the 10th Mountain Division Resource Center in Denver. The result is a database of 32,247 records of men who served with the Mountain Troops from 1941-1945. While this database is not available online, you may use this Name Index to determine if a person was a member of the 10th Mountain Division, his rank, and the unit with which he served.
