

Colorado County General Highway Maps

This guide lists the editions of the general highway maps held by the Denver Public Library, issued between 1936-1980 by the state of Colorado. Some editions are incomplete and some sheets are heavily annotated. Sheets include a base date reflecting when the original edition was created, and if applicable, a road update year for the “federal aid and state system” of roads. In the table below, the year shown is the year of the latest revision.

New base map editions were typically issued 8-10 years apart, with later editions often including detailed coverage of more densely populated portions of the county. [A 1950 price list and product description for this and related map sets is available for viewing](#), and provides additional information on the relationships between the products.

A mid-1970s bound atlas of all counties complements the loose sheet maps. Coverage from the bound atlas is noted below with “(+atlas)” or “(atlas only)”, depending on whether or not the atlas is the only copy available for that year.

Adams	Arapahoe	1956-57
1936	1939	1963
1949	1950	1967
1950	1951	1973
