Names and age of the students are indexed with the years that the student attended a school. The names and spellings that were given on the census have been used for the transcriptions in the index. Variations of various day, month and year for birth dates are retained. Different people filling out the forms for different years with different handwriting resulted in variations in all the recorded data and interpretation of the instructions for taking the school census.

Instructions for taking the school census were as follows:

1. This census blank is for use in districts having a school population of 400 to 1,500 persons.
2. Sections 97 and 115 of the School Laws Annotated, 1912, should be carefully consulted for *directions*. The age on last birthday prior to February 10th should be given.
3. Place names of boys on left-hand page and those of girls on right-hand page in *alphabetical order*.
4. The names of all persons between the ages of six (6) and twenty-one (21) years should be given. In districts below first class, under residence, enter name of parent or guardian and post office address. Enter on separate list in back of the book each deaf mute or blind child between the ages of four (4) and twenty-two (22) years, with *name and post office address* of each parent or guardian.
5. In calculating the numbers between 6 and 21, 8 and 14, the first number only in each case is to be included.
6. Students in a private or public institution, whose parents are not residences of the district in which such institution is located, should not be included in the census of that district.
7. The person taking the school census is directed to require each parent or guardian to subscribe or to take oath that such record is correct.
8. Crippled children up to the age of 21 years shall be included who have a physical deformity such as to restrict normal capacity for education or self-support. This includes all congenital deformities such as harelip, club feet, absence of some member, etc.; deformities caused by disease such as infantile paralysis, bone tuberculosis, etc.; or by accident such as fractures, burns which cause contractures, and the like. All children 6 years of age and under should be reported as early as possible to Colorado Child Welfare Bureau, Denver, Colorado.

The census record on these films may consist of these parts: student's name, date attended, district number, sex, place of birth (towns are in Colorado unless noted otherwise), date of birth, age as of April 10th, residence and school grade last attended of each child enumerated, year of attendance added after in 1939 census; parents or guardian names occasionally given, and country nativity of parents (after 1920) and whether illiterate; names and number of deaf, mutes, blind, illiterates and crippled. In some cases the last grade attended may be some years prior to the census year. The Census was taken about May of the census year. In some cases it appears the students continued to attend school even after having attended for twelve years which is reflected in the census as grade numbers larger than twelve. In some cases the girls got married, changed their surname, but continued to attend school. In the case of information conflicts, one should always check the original records.

Listed below is the following information: student's name, birth place, birth date (**only listed students born 1925 and earlier**), age, grade last attended, residence, school district attended, attendance year, parents or guardian and film number. For the residence, state abbreviations were used, and Colorado towns have no Colorado state abbreviation. aka means "also known as". These records end with an attendance year of **1942 although later records are available**. Most of the records were handwritten, and it

was hard to distinguish between the letters a & o , i & e, u & n, T & I and S & L, the numbers 2 & 3 and the names Lu and Lee.

Although there is little additional information in the original records, **complete information from these records may be obtained by contacting:**
