Employee Badge and Seniority Lists
1944 1963 1964 1996
Denver, Colorado

This index is a compilation of Denver Tramway and Regional Transportation District employees with service dates and badge numbers or seniority rankings at four time points. The first column of the index lists the employees alphabetically by surname. The second column presents the employment service start date for each individual. The third column provides the badge number for individuals who were working for the Tramway Company in June 1944. The service start dates for individuals with a badge number in column three range from December 21, 1891 to June 18, 1944. The fourth and fifth columns provide 1963 and 1964 badge numbers for those individuals with service start dates ranging from September 6, 1920 to December 30th, 1964. The sixth column lists the seniority number for those individuals employed by the Regional Transportation District in August 1996. The service dates for the individuals with a badge number in the sixth column range from September 22, 1962 to August 11, 1996. Occasionally, individuals are listed with no entry in the Badge Number or Seniority Number columns.
